

StratosH 2300 Series

Bioptic Scanner/Scale

Honeywell's StratosH® 2300 6-sided, 360°-bioptic scanner/scale provides retailers with high-throughput productivity and aggressive first-pass scanning performance. Its patented modular independent scanning planes simplify set up, minimize downtime and maximize customer satisfaction.

StratosH ensures checkout efficiency with StratosSYNC™ and StratosSWAP™. Both features capitalize on Honeywell's patented modular scanner configuration of independent vertical and horizontal scanning planes.

The StratosH form factor is available in several lengths and boasts a 4-inch-below counter depth for easy integration into most checkout environments.

The StratosH 2300 maximizes return on investment with two analytical tools for tracking, managing and improving checkout productivity and efficiency. StratosSTATS™ provides real-time visibility into key data points directly impacting checkout productivity. StratosSCHOOL™ captures information necessary to improve operator scanning techniques and safety.

StratosH also features RS232 auxiliary port, Flash ROM firmware upgrade capability, MetroSet®2 PC-based configuring and sapphire or Diamonex® horizontal window.
