## Mobile Computer for Healthcare

### Purpose-built with the right combination of features and accessories for light-duty applications in healthcare.

The healthcare industry faces many challenges. Requirements are evolving rapidly. Mobile computers – purpose-built for healthcare – are critical tools to help address these challenges.

From admissions to inventory management to the point of care, the ScanPal<sup>™</sup> EDA51 HC mobile computer is designed for light-duty applications. It features a fast Qualcomm<sup>®</sup> Snapdragon<sup>™</sup> SDM450 processor, robust wireless connectivity, and 12 hours of battery power, so medical professionals can access crucial work apps and information when and where they need it.

Accuracy is essential for delivering quality care. That's why closed-loop medication management and sample collection based on barcode reading is now the standard practice for patient safety. The ScanPal EDA51 HC equips you to instantly and accurately capture this barcode data – even if a barcode is damaged – with its powerful, integrated scanner. You can also document images to aid in patient care with the device's autofocus, 13-megapixel color camera.

And to help support your infection prevention protocols, this mobile device is made with a healthcare-grade housing that you can disinfect frequently over its entire three-year lifespan.

The ScanPal EDA51 HC helps you deliver excellent care at a low total cost of ownership. With its intuitive, modern touchscreen design, the device is easy to use with a short learning curve. In addition, its sleek and pocketable design is comfortable enough to use and carry all day – but rugged enough to survive in demanding healthcare environments. The device is also upgradeable through Android<sup>™</sup> Q, giving your organization flexibility and built-in investment protection.

The ScanPal EDA51 HC is an easy-to-use, sleek, and pocketable assistant that enables caregivers to deliver excellent, patient-focused care. It also lowers the total cost of ownership of a solution that's purpose-built for healthcare.

## **FEATURES AND BENEFITS**

Comes with Android O and is technically compatible through Android Q, protecting your investment for the future.

Easy to use and carry, with a 5-inch touchscreen and intuitive smartphone interface in a lightweight, comfortable, and pocketable design.
